# **Spring Plungers**• smooth, without collar 22080.0367

# N

#### **Product Description**

Spring plungers can be used for locating or for applying pressure, as a detent or for ejection.

#### **Material**

#### Body

· Stainless steel 1.4305

· Stainless steel, hardened

#### Spring

stainless steel

#### **Assembly**

The locating hole has to be adapted to each individual application case. We recommend an F8 size location hole for easy assembly and a H9 size when tight fit is required.

#### Characteristic

Reinforced spring load: marked with two lines

Standard spring load

Heavy spring load

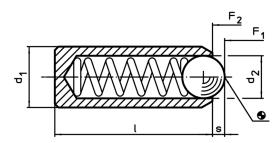

#### More information

Special types on request.

Spring plungers are specially tested for spring range and forces.

Calculation of indexing resistance, see details at the start of the section.
